# ESTHERAMMA

Estheramma is a 46-year-old wife and mother of three who lives in one of the rural villages surrounding the Adda Road Advent Christian Church. Initially her life was immersed in a great spiritual darkness.

Her life began to change when her husband became very ill.

“After some time, my husband got sick, and we took him to the hospital. The doctors could diagnose nothing wrong with him ... But inside his body he had some weakness caused by a demon ... I heard that Jesus Christ could heal him.”

Things went from bad to worse for Estheramma and her family. Her husband’s health declined even further, but she found help and support in her church family.

“My husband became like a lunatic with a disturbed mind and we all thought he would die soon. **We believed that Jesus could heal him, so we took him to the church ...** My husband moved into the church and after one week he was delivered from the demon. And he became a Christian.”

Because of financial problems and health issues, her family accumulated the equivalent of about \$10,000 in debt. Culturally, **this was an almost insurmountable debt to repay.**

“Our neighbors were saying ... our creditors would come and take our home. All our neighbors who believed in tribal religions and superstition criticized us.”

Estheramma once again turned to God.

“I made a covenant with God at the Calvary Mountain. **Everyone is saying it is hopeless, but we have faith in you.** We are going to find new work. We will come back after one year. Father if you bless us financially to repay this debt, we will share the testimony.”

After moving nearly 300 miles from home and working as laborers at a brick factory, Estheramma and her husband returned home.

“Miraculously, God sufficiently provided, and all ... debt was repaid within one year. Last month I shared my testimony at Calvary Healing Mount ... **God has helped to sustain us in every way, and I will stand and testify of his goodness.**”
